

Since the Indiana Telephone Privacy Law was put into effect, it has been a pleasure to know when someone calls it is not someone trying to sell something you don't or don't want. I believe I have not received one call since signing on to this protection plan and I was probably receiving up to 5 to 10 per week before. This Privacy Law has just been a god send to me. If it is necessary for you, to change our law it should be, that it would not lessen our the

Protection we enjoy with the Indiana Telephone Privacy Law.

You people may not understand, the effort sometimes it takes to get to the phone to answer it, and then get a call you do not want, and are not at least interested in what they have to say. Please keep this in mind. Senior Citizens, as I am one, really appreciate the protection we have had the last year. Thank you for taking the time to consider the note. Signed Wayne Linn P. O. Box 213, Mexico, Indiana. 46958. End
